CITY AND COUNTY DIRECTORY

...OF...

KEWAUNEE

INCLUDING

City of Algoma and the Villages of Luxemburg, Casco, Stangelville and Tisch Mills

TOGETHER WITH

The 21 Routes in the County

1907 -- 1908

CONTAINING

An alphabetical list of names and business directory of the cities of Kewaunee and Algoma; the 21 rural routes in the county in numerical order with lists of names of the persons receiving mail along these routes in the order in which they come on such routes; an alphabetically arranged list of names of persons receiving mail along the rural routes with the postoffice and the number of the route after each name; also a list of persons receiving mail at villages or stations not included in the regular routes

E. F. G. VOEKRODT, Publisher, Sheboygan, Wis.

Printed By THE DIX PRINTING CO., Sheboygan, Wis.

Introduction

THE rapid growth of the city and county of Kewaunee and the establishment of the county system of carrying mail has created a heavy demand for a book containing the names of persons residing in said city and those who reside along the routes. It is therefore with pleasure that we meet this demand. We have made a thorough canvas throughout the city and county and spared neither time nor energy to obtain as correct a list of the various cities, villages and routes as circumstances permitted.

Expressing our thanks for the co-operation of our friends in the preparation of this book we hope it will meet the heartiest commendation.

E. F. G. VOEKRODT,

Sheboygan, Wis.

In all seasons of the year you will find our line of **CLOTHING** for Men, Women and Children the latest, and in assortment and price to suit all

KEWAUNEE RURAL ROUTE DIRECTORY

KEWAUNEE COUNTY

Names of persons receiving mail along the routes and villages in alphabetical order

The * indicates the head of the family and the names appearing under the head are members of the same family over 16 years of age. R stands for route and the figure indicates the number of the route at which such person receives mail.

Giant and Ideal Horse Powers

SINGLE AND DOUBLE GEAR

ALSO BUILDER OF

PEA HARVESTING MACHINERY

Grain Saving Guards for Binders, Portable and Stationary Saw Mills, Shingle Mills, Cheese Box and Wood Sawing Machinery. Drag Saws, Circular Saws

A complete line of Fly-wheel and Cylinder Fodder Cutters for hand and power use. They are the only machines in the market in which the feed rollers are under full control of the operator.

The Giant Feed Mill is fully covered by Letters Patent in the United States, Canada, England, Belgium, France, Germany and Austria. It is manufactured in different sizes ranging in capacity from ten to a hundred bushels of grain per hour.

"This mill is so constructed as to make it impossible for the face of the burrs to touch each other even when entirely empty. It has, on this account, an important advantage over all the others as no energy is lost through friction of the burrs upon themselves. The GIANT runs much stiller than the others tried on the account stated, and the life of the burrs must be proportionally lengthened."

(From Bulletin No. 82. Agricultural Exp. Station, University of Wisconsin, April 1900.)

LIBERAL TERMS TO AGENTS **CORRESPONDENCE SOLICITED**

ANTON MOUDRY

BOTTLER OF

All the Latest and Standard Brands of Carbonated Waters

My factory is now under new management

Some of the very latest Machinery has been recently installed and I am now better prepared than others in this and adjoining counties to furnish the retailer
